

Berkshire Place is a small, independent, non-profit organization overseen by a local board of directors, who are dedicated health care and business professionals from our community.

Our programs and services are designed to enhance independence, quality of life, dignity and well-being. Our new state of the art facility offers a friendly and relaxing environment, in which comfort and security are paramount. A respect for privacy and encouragement of individual choices reinforce the personal values of each resident and patient consistent with our over century-long tradition of caring for the community.

We understand that our residents/patients are the reason we exist and this attitude comes through in every decision we make. We are never

complacent about quality and we continually strive to reach higher standards with resident, patient and family satisfaction always our top priorities.

Our newly constructed facility with its contemporary design and expertly crafted layout is just another example of reaching for higher standards – and the result has created a truly amazing environment that resembles a Five Star Resort! The building offers an incredible setting that promotes well-being and enhances optimal care delivery, which should be seen in person to truly appreciate.

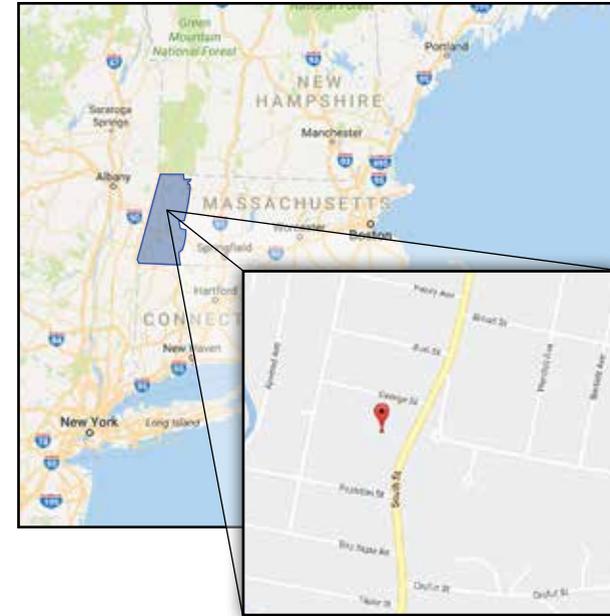

We are confident you will be pleased with your decision in selecting one of our many health care offerings to meet your needs.

## SHORT-TERM SKILLED NURSING AND REHABILITATION

### Select Program Highlights:

- The ability to make advance reservation bookings for elective surgeries (such as joint replacements). We offer tours at your convenience to view our nationally renowned accommodations and provide the opportunity for you and your family to meet with our clinical team members to discuss your plan of care needs.
- Our small, personalized program consists of just 13 spacious private rooms each with a full private bathroom for added comfort and recovery promotion.
- A caring, compassionate, and expert interdisciplinary medical team, which includes our medical director, nurses, rehabilitation therapists, dietitian, social worker, certified nursing assistants and therapeutic recreation specialists.
- Rehabilitative therapy (physical, occupational, and speech) available up to seven days a week, including use of our spacious state of the art gym and specialized modality equipment.
- Direct access to our outside garden terrace and all-inclusive amenities, such as cable television, telephone service, and Wi-Fi.
- For any unplanned hospitalizations (such as for recovery from a stroke, congestive heart failure, pneumonia, etc.) be sure to request Berkshire Place as your **FIRST CHOICE** from your designated hospital representative or physician when it is time to leave the hospital for your post-acute recuperation needs.

## DEMENTIA SPECIAL CARE

### Select Program Highlights:

- Our Dementia Special Care program was one of the first officially certified and licensed by the Massachusetts Department of Public Health.
- The residency is small with a maximum capacity of just 14 residents, which enables us to provide exceptional, personalized care and services.
- Each spacious room is private with residential neighborhood views and includes private full bathrooms for added privacy, comfort, and well-being.
- We utilize a primary nurse care model with licensed nurses providing direct care to each resident and supported by certified nursing assistants for residential personal care needs.
- Our nursing staff is complemented with our comprehensive activity program, which provides 12 hours of daily programming, 7 days per week for resident engagement.
- The residency has direct access to its own garden terrace space, yet is secured for enhanced safety.

## LONG-TERM CARE RESIDENCY

### Select Program Highlights:

- Our long-term residency provides a comfortable residential setting consisting of just 27 spacious private rooms with private full bathrooms. The floor provides magnificent neighborhood views including of the Berkshire Hills and has intimate dining rooms, living rooms, dens, fireplaces, and laundry facilities.
- Three deliciously prepared home cooked meals are provided daily with menu selections, which are overseen by a registered dietitian for optimal nutrition and any special diet accommodations.
- A full complement of activities including social entertainment, religious and spiritual services, pet therapy, arts and crafts, and much, much more.
- Professionally licensed nurses and certified nursing assistants on-site, 24 hours a day, 7 days a week for medication administration/monitoring assistance, treatments, and personal care needs.
- Prospective residents can be admitted directly from other nursing, assisted living or independent living facilities, or home settings when more care may be required, or when it may become more cost effective to change living arrangements.

## HOME CARE SERVICES

### Select Program Highlights:

- At Home with Berkshire Place is an extension of Berkshire Place's care and services into the community, which promotes independence and well-being in the home and in other living settings.
- We offer assistance with personal care and companionship, meal preparation, housekeeping, maintenance, transportation (to medical appointments, shopping and errands) and more. We also provide select private nursing and rehabilitation services.
- We require no minimum service hours and develop an individual plan of care based upon your desired service needs.
- We offer a complimentary "Transition Program" following a short-term skilled nursing and rehabilitation stay at Berkshire Place to assist with your return home and to complement your VNA service provider.

## OUTPATIENT REHABILITATION SERVICES

### Select Program Highlights:

- We are the only skilled nursing facility in the area, which offers outpatient rehabilitation care. Our unique program is ideal for those patients still requiring physical therapy, occupational therapy, or speech therapy, but no longer needing an inpatient setting, or for those in the community in need of such therapy as prescribed by their physician.
- Full use of rehabilitation gym, private therapy rooms, specialized modality equipment, and access to our highly skilled therapists.
- Separate entrance for outpatient rehabilitation for ease of access with ample accessible parking.
- Continuity of care for those patients that were inpatient with the same therapists.
